

Photography & Filming
Policy Statement

Zero Gravity Academy is proud to uphold high standards of coaching, ethics and welfare in all aspects of its operation.

To aid coaching within the club, the use of video or photography will be used. For the protection of all participants Zero Gravity Academy has implemented the following policy:

- Videoing and photography will be used in training session and during events as a coaching aid.
- Photographs may be used as a record of achievement and posted on internal notice boards or the Academy website.
- A minimum of two responsible adults must be present at all times during filming.
- Video & Photo material will be stored appropriately to avoid misuse.
- Applications from persons other than coaches to film or photograph the participants during training, or away from the training hall must be scrutinised and approved by the lead coach.

Parents and guardians can opt out of the above policy (to ensure their child is not photographed) by deleting the appropriate words within the parental consent section of the club registration form (to be completed by regular participants upon entry into all club sessions).
